ITEMS OF INTEREST TO REA BORROWERS

Speedy Action Essential.. IF YOU DESIRE THESE MATERIALS

April 3, 1947

CONDITION: New, unless otherwise shown.

PRICE: As shown below, f.o.b. Carrier.

TIME LIMIT: Telegraph us your order immediately as these materials are held for REA activities for a very short period.

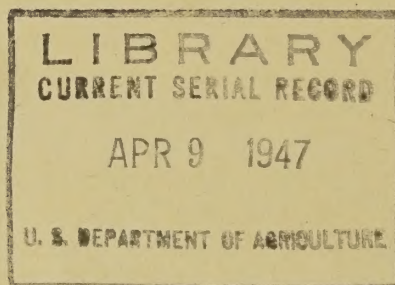

ORDER INSTRUCTIONS: Telegraph order should include order number. In addition, mail two copies of your order marked "Confirmation of Telegram", and your plant procurement order, when necessary.

ITEM NO.	QUANTITY	DESCRIPTION	UNIT PRICE
1	160	REFLECTORS & SOCKETS: Type & Use - light electrical; Mfr. Benjamin Mfg. Co; Cat. #Benjamin #26611 Socket #6111 reflector; material-steel; finish-enameled porcelain color: Green on top, white reflection, size: Reflector 12" dia. Location: Lexington, Kentucky.	\$ 1.75 ea
2	500	REFLECTORS & SOCKETS: Type: Light, Mfg: Benjamin Electric Mfg. Co. Cat. #Benjamin #2661 Socket & 653 Reflector. Color: Green on top, white under. Dimension: Reflector 16" diam. Socket has cord and chain. Location: Lexington, Kentucky	\$ 2.25 ea
3	1 lot consisting of 8 ea.	FIXTURE ASSY., Ceiling, Kind-Electric, Style - Closed Globe, Base Body - 4-1/2" flange, Column-41" long, Reflector 21" dia. Globe 11" Dia. 5-1/2" Hub, Number of lamps 1; Body Metal, Column: Iron Pipe, Reflector, white porcelain - Finish: Smooth, Contains operator control switch. Condition: Used. Location: Richmond, Kentucky.	\$109.31 Lot
	61 ea.	AND REFLECTORS & SOCKETS: Type: Light, Electrical, Mfr: Benjamin Mfg. Co. Cat. No: Benjamin #2661 socket, #1161 reflector, Mat'l: Steel, Finish: Enameled porcelain, Color: Green on top; white reflection surface. Dimensions: reflector 8" dia. Socket with pull chain & cord. Condition: Unused. Location: Lexington, Ky.	
	2 ea.	AND HEATERS: Air Electric, 115 V., 60 cycle, 1.5 KW, UB15; Serial No. A. Current: Mat'l tin case. Trade Name: Chromalox. Mfr: Edwin L. Wiegand Co. Brown & Silver paint finish. Complete with switch thermostat. Dim. approx. 1'H, 1'L, 1'W. Cond: Used. Location: Lexington, Ky (NOTE: The above Item 3 to be sold as one lot only).	

In all communications to REA concerning these items, please refer to SWP Release: 213A

In all communications to REA concerning these items, please refer to SWP Release: 213B

ITEM NO.	QUANTITY	DESCRIPTION	UNIT PRICE
4	12	POLE TRAILERS, 2 wheel, Rex utility, with two 900 x 20 tires, with tongues and running lights. Condition: Used, Good. Location: Oklahoma City, Oklahoma	\$ 225.00
NOTE: It is necessary for any Cooperative ordering these trailers to send a plant procurement work order to us <u>immediately</u> .			
5	1	COMPRESSOR, air wheelbarrow, mfgd. by Briggs Stratton Corp., capacity 16 cfm, single cylinder, air cooled, size 41"L - 16"W - 22"H, Serial No. 72439, Model No. N. Mounted on 1 1/4" steel tubular frame, 1 steel wheel 4"W - 16" dia. Equipped w/single cylinder, air cooled, gasoline engine, w/V belt pulley drive, pulley for rope starting (foot pedal for starting when gear is mounted on shaft). Safety relief valve, up to 160# pressure, 25' hose, 50' hose w/no connection on end, 1 end wrench. Condition: Used. Location: Sharonville, O	\$ 125.00 ea.
6	2	GENERATORS, Set unit, Mfgd. by O'Keefe & Merritt Co., Los Angeles, Model PE-95-G, O/A dim. 80" long 35" wide and 47" high, wt. approx. 1500#, single phase, 60 cycle, AC at either 120 or 240V. Rated capacity 10 KW at unity power factor and 12.5 KVA at 80% power factor. Gasoline operated and has a 35 HP rating at normal speed of 1800 RPM. Condition: Unused. Location: Helena, Montana	\$ 552.00 ea.
7	1	GENERATOR, gasoline driven, 8 KW, 115/230 V, 60 cycle, single phase, 43 amp., 1800 rpm, 80% PF, Mfr. D. W. Onan & Sons. 4 cylinder motor direct coupled to generator auxiliary generator for excitation is 125V DC at 5.6 amp. The equip. is designed to start from a 12 V auto storage battery. Condition: Unused. Location: College Park, Maryland	\$ 615.00 ea.

SURPLUS WAR PROPERTY

ITEMS OF INTEREST TO REA BORROWERS

Speedy Action Essential.. IF YOU DESIRE THESE MATERIALS

April 10, 1947

CONDITION: New, unless otherwise shown.

PRICE: As shown below, f.o.b. Carrier.

TIME LIMIT: Telegraph us your order immediately as these materials are held for REA activities for a very short period.

ORDER INSTRUCTIONS: Telegraph order should include order number. In addition, mail two copies of your order marked "Confirmation of Telegram", and your plant procurement order, when necessary.

ITEM NO.	QUANTITY	DESCRIPTION	UNIT PRICE
----------	----------	-------------	------------

SPECIAL NOTE: The following properties are available, however, to obtain them a bid must be submitted to the War Assets Administration by April 18, 1947. If any Cooperatives are interested in obtaining these properties, please wire us immediately and indicate the price you desire us to bid for you.

1	3	GENERATOR SETS: 600 Watt-115 Volt-AC, 5.2 amp, Model JY-BA-60, Serial #5836. Direct connected to Gas Driven air cooled Model AP Briggs Stratton engine. Serial #53760, mounted on portable, hard base Dim. 30" x 15" x 1-1/8", supplied w/2 pipe handles for carrying. W/50' extension cord, 2 wire w/cap and socket, connects to top of gen; voltmeter range 150 x 1 ctn. containing, rope crank. Fly wheel puller, muffler, 4 rubber blocks w/mounting. OA Dim. 34"L x 18"W x 22"H. Set known as Pincer Gold Crown.	BID
---	---	---	-----

2	1	GENERATOR SET: 30 KW, 110 V, 3 Phase, 60 Cy., 1200 RPM, Type FR-5008 class, Form 3D, Serial T-30K1474. Self-regulating Generator mfg. by Lewis Allis Co. Direct connected to Diesel driven Model D 4600, Serial #5734 SP, 6 cylinder, 1200 RPM, Engine Mfg. by Caterpillar Tractor Co. W/tools and pipe flanges to connect 1 Burgess #STC-3, muffler w/set. Not mounted on skids.	BID
---	---	---	-----

3	6	GENERATOR SETS: 3 KW, 110 V, DC, 27.25 amp, 1800 RPM, Model A-7117 Delco Generator, Direct connected to gas driven, 1 cylinder, 4 cycle, air cooled Model AEHS, Wisconsin engine. Mounted on platform w/steel wheels. Has 3.00 x 5" pneu. tires.	BID
---	---	--	-----

4	5	GENERATOR SETS: 600 W, 110 V, AC, 60 cyc., 1800 RPM (includes 15 V, DC at 15 amp) self-excited, 1800 RPM Gen., direct coupled to Wisconsin engine. 1 HP, 4 cyc., air cooled, (Cont'd)	BID
---	---	---	-----

In all communications to REA concerning these items, please refer to SWP Release: 214A

In all communications to REA concerning these items, please refer to SWP Release: 214B

ITEM NO.	QUANTITY	DESCRIPTION	UNIT PRICE
4 (Cont'd)	5	rope or battery start, shielded plug, portable, complete w/tools and spares. No battery. Set known as "Pioneer Gen-E-Motor" Mdl BA-6.	BID
5	1	GENERATOR SET: 300 W, 110 V, AC, 60 cyc., (includes 200 W at 7-1/2 V, DC). Belt driven by Johnson Mdl X510 gas engine, portable, set assembled by Pioneer Gen-E-Motor Corp.	BID
6	1	MOTOR GENERATOR SET: 5 KW, 30 V., DC, direct coupled to 7-1/2 HP, 220/440 V, 3 ph., 60 cyc., 1800 RPM, Serial #PB 349, Style 98316, 19/9.5 amp.	BID
7	1	GENERATOR SET: 7-1/2W, 120/240 V., 60 cyc., single phase, 1800 RPM, Serial RB 880, Style 121266, Frame 364, Generator Mfg. Master Elec. Co., Direct connected to: Gas driven 4 cyl., Wisconsin VF4, Serial 408783. Engine w/control panel, assembled as one unit, secured to bed plate, and mounted on dolly, and equipped w/distributing cable. All mounted on 2 wheels w/6.00 x 16, 4 ply pneu. tires.	BID

CONDITION OF ABOVE ITEMS: Unused. LOCATION: Auburn, Washington

In addition to the above, the following properties are available at the fixed price shown.

8 150 pcs. BLOCK AND TACKLE consisting of 150' sisal $\frac{1}{2}$ "-3 ply sisal rope, treated w/antifungisolution of copper naphanate, rendering a color to dark green, with double and triple blocks. Sheave size 2-1/4" x 5/8" x 3/8". Wheel size 4" dia. Condition: Unused. Location: Ecorse, Michigan. \$ 3.93 ea.

9 400 LIGHTNING ARRESTORS, Model 9LA 10B-5 GE. Located at Benton-Lincoln Electric Cooperative, Inc., Corvallis, Oregon. Any cooperative desiring any of these arrestors should contact the Benton-Lincoln Electric Cooperative direct. F.O.B. Lebanon or Scio, Oregon. \$12.92 ea.

10 41 PAULINS, cotton canvas No. 4, 17' x 23', partly finished edges, olive drab color with 3 eyelets, finished edges, mfd. by Fielder & Mitchell Awning Co., Inc. Location: Tampa, Florida \$23.25 ea.

11 147 GRINDERS; Fixed, "Utility" Pedestal Grinder, No Model No. Shown, Double End, Horizontal, Direct, Coupled, Drive. Manual Control, Stationary, Floor type, for Surface Work, Equipped with 2 wheels, powered by 2 HP Utility Motor, 1450/1750 RPM, 220/440 V, 3 phase, 50/60 cyc., Mfr. Utility Grinder Mfg. Co.

The Prices vary due to manufacturer, condition, horsepower of motor, wheel size, etc. All are specified to be in good condition.

Quantity	2 Wheels	H.P.	Price
22	12"	1 1/2	\$ 54.89 to \$55.87
93	12"	2	\$ 85.30 to \$95.86
30	14"	3	\$ 78.16 to \$87.55
2	10"	1	\$ 40.19 to \$68.27

SURPLUS WAR PROPERTY ITEMS OF INTEREST TO REA BORROWERS

Speedy Action Essential.. IF YOU DESIRE THESE MATERIALS

April 17, 1947

MATERIAL: Explosives.

PRICE: As shown below, f.o.b. Carrier.

TIME LIMIT: April 28, 1947.

ORDER INSTRUCTIONS: Mail orders to us in DUPLICATE with vendor's name and address space left blank, for us to fill in the appropriate Disposal Agency name, etc. We will retain the duplicate order for our reference. Orders will be processed in order of receipt, subject to prior sale.

S P E C I A L

T.N.T. - SAFER THAN DYNAMITE

Tuesday, April 8, the U. S. Army Demolition Corps, at our request, conducted a demonstration on the safety of T.N.T. and its use for excavating pole holes in connection with REA Construction.

To demonstrate the safety of T.N.T., an Army Sergeant fired a 30-30 rifle into six 1-pound blocks of T.N.T. None exploded. The Sergeant then fired the same rifle into six 1-pound sticks of 60% gelatin dynamite, and every one exploded. This demonstration clearly indicated that T.N.T. is insensitive to shock.

To further demonstrate the safety, a 1-pound block of T.N.T. was ignited within 25 feet of observers. The T.N.T. burned like oil but did not explode. T.N.T. burns at 266°F., and when burned in the open, in quantities less than 100 pounds, will not explode. This demonstration indicates that T.N.T. is safe in the event of fire when transported in trucks to and from construction sites.

A 1-pound block of T.N.T. is equal in strength to 1-pound of 60% gelatin dynamite.

Six holes 6-feet deep were charged and exploded simultaneously. The charges were set in 5 of these holes prior to arrival of the observers. The 6th hole was charged in the presence of observers. 2-inch holes had been drilled in the rock. The T.N.T. blocks are 1-7/8" x 1-7/8" x 6". The demonstrator shaved the corners of the blocks so they could readily be inserted in the 2-inch holes.

(Cont'd)

In all communications to REA concerning these items, please refer to SWP Release: 215A

In all communications to REA concerning these items, please refer to SWP Release: 215B

An examination of the holes after the explosion showed that the rock had been thoroughly broken into small fragments for the full depth.

Felling of large trees with T.N.T. was also demonstrated. A quantity of T.N.T. was tied on the side of the tree facing the direction of desired fall. The tree was cut off nicely and fell exactly where desired.

T.N.T. is insoluble in water and can be used in underwater charges.

The use of PRIMACORD in place of caps was demonstrated.

Primacord is safer than using caps in each block of T.N.T. or stick of dynamite. There is no danger of detonating unexploded caps when clearing holes, or exploding loose caps in trucks or storage.

T.N.T. does not deteriorate like dynamite. It can be stored until use is required without damage to its blasting power. Turning to prevent deterioration is not required.

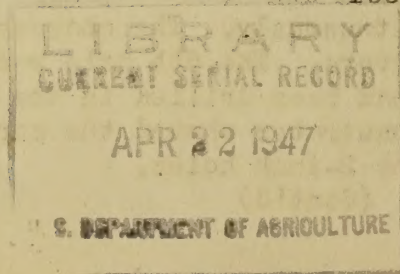

REA Cooperatives and contractors doing REA construction work, who desire to order a sufficient amount to care for present needs and future construction should send us their orders without delay. The price is very attractive, being less than half the cost of dynamite.

53 persons attended the demonstration. 33 of these consisted of REA personnel from Engineering, Management and Information Divisions, REA Cooperatives, and Contractors doing REA construction. 20 were from Forestry, Department of Interior, War Assets Administration, and Fire Department of Washington, D. C. All expressed satisfaction that T.N.T. is safer than dynamite, and can be used economically.

Care should be exercised in complying with local, municipal and state regulations regarding storing, handling and the use of explosives. When installing charges and firing, the same general safety precautions should be followed as when using dynamite or other explosives.

The following properties are available for immediate delivery:

ITEM	MATERIAL	PRICE
1	6,392,663 - 1/2 pound blocks of T.N.T.	\$.07 per lb.
2	20,425,078 - 1 pound blocks of T.N.T.	\$.07 per lb.
	PRIMACORD	
3	112,065 - 50' spools	\$.015 per ft.
4	168,292 - 100' spools	\$.015 per ft.
5	67 - 1,000' spools	\$.015 per ft.

SPECIAL

On November 19, 1946 we issued SWP Release No. 190 relative to the coaxial cable which was obtained from War Surplus for the cooperatives to be used in connection with Two-Way Radio Communication Systems. The Technical Standards Division felt that this cable would be beneficial to the Cooperatives. To obtain the cable, the War Assets Administration requested that all orders be shipped to one location. The Macon Electric Cooperative, Macon, Missouri, agreed to accept shipment of this cable on behalf of the other REA Cooperatives and to distribute it to those cooperatives upon receipt of orders from them. The Macon Electric Cooperative has now been billed by the War Assets Administration for 75,910 feet of cable. Macon reports, however, that they received orders for only 1400 feet to date. Since the Macon Electric Cooperative has been good enough to act for the other cooperatives in this case, it is urgently requested that all cooperatives that intend to install Two-Way Radio Communication Systems at any time in the future send their orders to the Macon Electric Cooperative, Macon, Missouri immediately. The Technical Standards Division has recommended that each cooperative so intending to install Two-Way Radio Communication equipment have on hand a minimum of 200 feet of this cable. The price is \$.035 per foot.

ITEM NO.	QUANTITY	DESCRIPTION	UNIT PRICE
5	291	MEGOHMETERS; with carrying case, f.o.b. Newark, N.J. Insulation testers, Army Model I-48B, equivalent to the "Super-Meg", Catalog #7679 as manufactured by the James G. Bittle Company, plastic mounted case with self-contained, constant pressure, DC generator of 500 volts. Testing range is 0 to 1,000 megohms. Overall dimensions are 8 3/4" long by 5" wide by 6 1/2" high. Weight approximately 9 pounds. Normal retail price approximately \$200.00. This instrument is ideal for testing insulation resistance of house wiring, circuits, transformers, meters, generators, motors, etc. Condition: New	\$ 50.00 ea.
